

2000kg Static Electric Lift Platform with Ramp

Model: HTFG2.0

A static electric platform with a 2000kg capacity, supplied with a ramp to make loading pallets easier. With a lift height up to 870mm, it is ideal for piece work type operations - can help prevent repetitive strain and back injuries by putting a pallet at a more suitable working height.

Table Top Size: 1600x1200mm

Capacity: 2000kg

Maximum Table Height: 870mm

Minimum Table Height: 105mm

Lifting time: 35 seconds

Motor: 1.5kW

3 Phase

Safety cut-off bars on all sides
