The pallet Truck Chock is a Lightweight product constructed from a strong recycled plastic construction, Rubber stoppers on the back of the chock ensures that it will hold the pallet truck in place on all surfaces.

Our unique pallet truck stop was designed to eliminate freight and vehicle damage due to runaway pallet trucks. It's easy to use, easy to store and it protects valuable freight and equipment from damage caused when a pallet truck moves in transit. Our pallet truck stop is ideal for haulage companies, pallet distributors, and other material handling customers that need to secure their pallet trucks. The Pallet Truck Stop is lightweight (weighing about 3 lbs.) and easy to use allowing any user to easily secure their pallet truck during transit. This unique and inexpensive product is an ideal solution for the transport industry.
