

Model SS-SLT-10B

This Stainless Steel pallet High Lift truck is a high quality finished product, all components are made from Stainless steel grade ANSI304/ANSI316 apart from the rubber seals and some nylon components making it a highly anti corrosive product ideal for use in the food, fishing, chemical and pharmaceutical industries.

This truck will operate as a standard pallet truck up to 200mm lift height, once this height is exceeded the stabilizer forks secure the truck onto the floor.

The 800mm lift height allows the operator to add or remove goods onto the pallet without bending thus reducing back injuries.

The Truck is supplied with fork rollers and two steer wheels made from rigid white Nylon fitted with sealed stainless steel bearings.

This truck will not lift closed bottom pallets.
