

1000kg Static Electric Lift Platform with Ramp

Model: HTFG10

A static electric platform with a 1000kg capacity, supplied with a ramp to make loading pallets easier. With a lift height up to 860mm, it is ideal for piece work type operations - can help prevent repetitive strain and back injuries by putting a pallet at a more suitable working height.

Table Top Size: 1450x1140mm

Capacity: 1000kg

Maximum Table Height: 860mm

Minimum Table Height: 85mm

Lifting time: 25 seconds

Motor: 0.75kw

3 Phase

Safety cut-off bars on all sides
