

BSS20 Stainless Steel Lift Table 200kg Capacity

BSS20 is a stainless steel lift table with a 200kg capacity.

Made of a stainless steel grade 304 structure, which includes the pump and cylinder. This scissor lift table is ideal for the pharmaceutical, or food and beverage industries.

For safety, it features rear locking wheels and clearance between scissors to prevent trapping.

A built-in relief valve helps to prevent any overload.
