

TF30S PARTIAL STAINLESS STEEL SCISSOR LIFT TABLE

TF30S is a 300kg capacity scissor lift table with a SUS304 structure and galvanised pump and cylinder.

The table top measures 500x815mm and lifts between a height of 290mm up to 890mm.

Weighing just 77kg, it is easy to push around and on 4 Polyutherane wheels with a 125mm diameter and the two rear wheels are locking.

The truck is raised with a foot pedal and lowered with some control using the hand lever.
