WSPTP1A is a pallet truck with weighing and printing facility

It has a 2000kg capacity and 0.1% accuracy of the applied weight.

It weighs in steps (graduations) of 1kg.

Designed for the most common of the Euro pallets of 120x80cm, but will fit other pallets too including the Blue GKN Style pallets, normally 120x100cm.

Weigh scale pallet trucks are designed so that you can take the scale to the goods to weigh, saving valuable time in the process.

- Mains rechargeable
- Thermal printer
