

# WIDE PALLET TRUCK 685x1220mm

With fork dimensions of 685x1220mm, this wide pallet truck model is aimed at those using UK or the larger Chep pallets (100x120cm or 120x120cm) - but it can also pick up the common Euro pallet (120x80cm) from the long side.

A wide pallet truck offers more stability when lifting heavy load pallets which have a tendency to arc.

It features a heavy duty 2500kg capacity pump and has large 200mm steers wheels, tandem fork rollers, all of which are quiet running PU.

Fork lift height is 85mm to 200mm and pallet entry is helped with nylon guide roller at the tips.

It features a top quality pump and has a three position lever on the handle.
