

AC20R Reel Carrying Pallet Truck

- A reel carrying pallet truck or roll carrying pallet truck is ideal for transporting such things as textile rolls, paper rolls, drums and other cylindrical shaped loads.
- This model has a larger than normal load capacity of 2000kg, as well as double tandem polyurethane rollers.
- It features a top quality hydraulic pump which has a controllable lowering hand control and 3 position lever. Grease fittings are fitted at key points.
- Tandem rollers spread the load therefore reducing ground contact and friction. This makes it easier to move heavy loads on the truck, resulting in less strain for the operator

SPECIFICATIONS

MODEL		AC20R1000	AC20R1500
Capacity	kg	2000	2000
Paper roll diameter	mm	800-1200	1200-1600
