

BSS Series Stainless Steel Lift Tables

- * The BSS series are stainless steel lift tables available in several models of different capacities, platform sizes and lift heights.
- * All models in this range are made with a stainless steel grade 304 structure, this includes the pump and cylinder.
- * Stainless Steel scissor lift tables are ideal for pharmaceutical, food or beverage industries.
- * For safety, all models feature locking wheels.
- * A built -in relief valve helps to prevent any overloading.
- * A foot brake is used to raise the load, with a lever on the handle for lowering the load.
- * Ideal for the hospitals, restaurants and for the pharmaceutical, chemical and food processing industries.
